Overview and Mission

Managed by the Maryland Park Service since 1984, the Maryland Conservation Corps (MCC) provides members with opportunities for personal and professional development and to receive hands-on training in a variety of environmental and natural resource-based careers through a supportive, team-based environment that emphasizes the satisfaction of completing projects that benefit Maryland's natural resources.

The program focuses on three critical areas of conservation work: **environmental and park infrastructure restoration; trail and waterway improvement; and environmental education and interpretation.** MCC members provide critical support to parks as a cost-effective, well-trained, highly motivated, and flexible workforce.

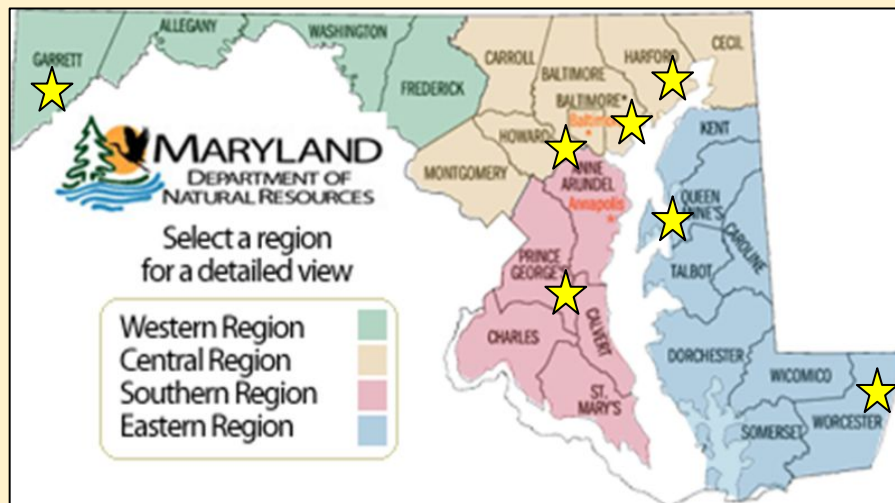

Program Structure

Statewide, there are **35 members** working in crews of five and hosted in **7 Maryland State Parks**.

Each site has an MCC Crew Leader and MCC Ranger Supervisor, who work with Park Management to develop meaningful conservation projects, provide guidance on daily activities, and mentor members in professional development and public land management best practices.

The MCC Headquarters Staff provides administrative and logistical support, training and troubleshooting, mentoring of Crew Leaders and members, coordination of statewide projects, and management of the AmeriCorps grant.

Program Goals

Environmental and Infrastructure Restoration

Members work on landscaping and construction projects, including planting native trees and shrubs, removing invasive species, clearing hazardous trees, installing signs and wayfinding, removing trash and debris, and repairing buildings and infrastructure.

Waterway and Trail Improvements

Members lay out and construct safe and sustainable trails, and work to manage human impact through the use of trail blazing, fencing, and signage. They assess and remove downed and hazardous trees, build boardwalks, repair eroded areas, restore streams and wetlands, and install living shorelines.

Environmental Education

Members lead school field trips, campfire programs, guided hikes, and canoe/kayak trips. They also lead nature walks, operate visitor centers, host special events, lead structured park programs and roving interpretive programs, support the Maryland Park Service's Scales & Tales wildlife program, interpret the natural history of Maryland's State Parks, and lead and participate in various outreach programs, festivals, and displays.

Program Benefits

- Bi-weekly living allowance
- Health care benefits
- Child care assistance (if eligible)
- AmeriCorps Education Award of \$6,195 that may be used toward school tuition, most federally approved student loans, or future education costs for up to seven years
- Low-cost park housing (first-come, first-served)
- Extensive training, professional development, and skill certifications
- Strong mentorship and networking opportunities

Member Development

MCC provides members with opportunities for professional development in emergency response, landscaping, environmental restoration, construction, and facility management.

Certifications

- 48-hour First Responder (advanced first aid and CPR)
- 40-hour Wildland Firefighting
- Environmental Education and Interpretation
- Chainsaw Skills and Safety
- Leave No Trace ethics
- Trail maintenance, monitoring, and construction
- Leading canoe trips

Additional Training

GIS, Search and Rescue, Ropes Course Instructor, Certified Pesticide Applicator, Water Quality Monitoring, Tool Safety, and Welding

Diverse Participants

The MCC recruits from a diverse candidate pool, building the program's workforce with highly motivated and dedicated individuals. Members draw upon varied backgrounds, education, and life experiences to accomplish program goals and projects. Crew members learn valuable communication, coordination, and collaboration skills as they work together as a team to solve problems, coordinate logistics, and accomplish goals.

After graduating, MCC alumni have advanced into careers with the Maryland Park Service, the Maryland Department of Agriculture, the Maryland Forest Service, NASA, and a variety of non-profit organizations. Many have gone on to become teachers.

Program Partnerships

AmeriCorps National Civilian Community Corps (NCCC)

Crews worked on trail maintenance with a NCCC crew that was based out of Susquehanna State Park for their last quarter of service.

The Nature Conservancy and Maryland Forest Service

Members assisted The Nature Conservancy Staff and Maryland Forest Service Staff with controlled burns to restore health and diversity to natural lands.

MD DNR Chesapeake and Coastal Services

Crews worked on restoration projects, including invasive species removal, shoreline and stream restorations, tree plantings, and tree and shrub maintenance.

Preservation Efforts

Treated **1,068** hemlock trees in Western Maryland to prevent degradation from the hemlock woolly adelgid and treated **208** ash trees for the invasive emerald ash borer.

Removed invasive species from parks across the state.

Planted approximately **1,282** trees and shrubs, bay grasses, and other native plants.

Park Improvement Projects

MCC Crews improved **3,795** acres of park and public lands, benefiting over one million park visitors and numerous plant and wildlife species.

Members assisted park staff with the ongoing renovation of the historic Election House at Sang Run State Park.

MCC Crews removed debris and old tires, installed gates and fencing at park entrances, created trails, and removed invasive flora to assist with the grand opening of Phase II of Wolf Den Run State Park.

Members completed **over 100** park recreation and facility improvement projects.

Trail and Waterway Improvements

MCC Members maintained 360 miles of trails and waterways by building, clearing, re-routing, and blazing trails, and by restoring wetlands, creating living shorelines, and improving fish habitat.

Crews helped park staff and volunteers build **new backcountry campsites and youth campsites** at the Pogo Memorial Campsite along the **Appalachian Trail** by South Mountain State Park.

Interpretation and Outreach

MCC Crews provided **Environmental Education** programs to **8,779** students, youth, and park visitors.

COVID-19 Pandemic

Crews responded to the **COVID-19** pandemic by assisting parks with essential park projects. Crew members worked on a variety of telework projects to assist parks with future environmental education programs, planted trees for the 50th anniversary of Earth Day, removed invasive species from parks, and assisted with trail maintenance and wayfinding.

Special Events

AmeriCorps

Martin Luther King, Jr. Day of Service

Members assisted with the MLK Service Day at Anacostia River Park in Washington, D.C. The members worked alongside nearly **400** volunteers who performed **1200** hours of service to clean up the Anacostia River. Members pulled out over **100** bags full of trash and a huge pile of miscellaneous debris from the river.

The Gunpowder and Susquehanna Crews also worked with **17** volunteers to remove over **350** tree tubes from trees planted in Gunpowder Falls State Park as a MLK Service Day Project..

First Day Hikes

MCC members from all of the crews assisted with and led First Day Hikes at parks across the state for hundreds of participants.

Program Accomplishments

On August 5, 2020, the Maryland Department of Natural Resources honored 31 graduating members of the 2019-2020 Maryland Conservation Corps.

The ceremony commemorated the members' completion of 10 months (totalling 54,987 hours) of job skills training, conservation work, and stewardship with the Maryland Park Service. The graduation ceremony emphasized the participants' achievements and the values imparted by their work, including leadership, responsibility, and effective teamwork.

"The program is a great mix of getting things done for others and personal gain. The training and experiences help others by preparing us to serve while we are able to benefit as individuals."

MCC Member Sarah Fellerman, Susquehanna Crew

"I didn't anticipate the amount of personal growth I've experienced in over just a 10 month period of time. I've really changed a lot for the better because of MCC."

MCC Member Samantha Waby, Assateague Crew
